THE ULTIMATE DIGITAL DENTAL PROGRAM

WHICH SCANNER?

WHICH SCANBODIES?

WHICH SOFTWARE?

WHICH MILLING MACHINE?

WHICH PRINTER?

WHICH RESTORATIVE MATERIAL?

LEARN THE COMPLETE WORKFLOW TO RECONSTRUCT LARGE CASES FROM BEGINNING TO END COMPLETELY DIGITALLY.

DAY 1

8:00 am registration and breakfast

Digital Part 1 (9-11:00 am)

- Inaccuracies in digital dentistry and how to avoid them.
- Intraoral scanners: how the technology works and how to choose.
- Single unit tooth workflow, from scanning to milling.
- Scan bodies and their inaccuracies.
- Single unit implant workflow from scanning to design.
- Lasers and application in digital dentistry.
- STL Files: Are they all created equally?
- Old school meets new school Digital dentistry: Case report.
- Full arch tooth implant workflow.

Break (11-11:15 am)

Digital Part 2 (11:15am-1:00 pm)

- Jonathan DIGILOG workaround.
- Full arch teeth and bridges workflow with intraoral scanner.
- Jonathan sigma wave technique.
- Full arch passive fit implant workflow method #1.
- Digital verification jig method.
- TRUST FACTOR: Utilize your dental assistant to help you close cases.
- DIY: Change the color of your abutments.
- Digital wax-ups and provisional creation modeless.

Lunch (1-1:30 pm)

Digital Part 3 (1:30-3:30 pm)

- Milling systems: what to choose and what to look for.
- Removing the removable from your practice: full arch workflow for low cost alternatives.
- Edentulous bite: SONJA method and GAMMA group method.
- Full arch with pontics scanning methods.
- Digital/analog model creator with chairside verification: Jonathan jig.
- Full arch options: printing vs. milling

DAY 2

Digital Part 4 (8-11:00 am)

- CAD vs. CAM
- Choosing available systems in CAD and CAM.
- 3D printers
- 3D printing: How to trick your printer to be more accurate.
- 3D printing: Resin chemistry, printing speed, layout, support vs. no support.
- SPEED printer unveiling.
- How to use one resin and get multiple colors.
- Single tooth full digital workflow for surgical guides, printed temps, immediate load, final DIY.
- DICOM to STL methods.
- JNK digital denture technique.

Break (11-11:15 am)

Digital Part 5 (11:15am-1:00 pm)

- Bone guides with no dual scan.
- Desktop vs. handheld scanners.
- 2 visit digital denture technique.
- Options for facial scanners.
- Workflows for full upper and lower arch implants (digital) in 2 visits.
- Workflows for radius of curvature, split file milling and designing.
- TRUST FACTOR: It takes a team to close a case, treatment coordinator portion.

Lunch (1-1:30 pm)

Digital Part 6 (1:30-4:00 pm)

- Night guards: the hidden moneymaker in digital dentistry.
- Digital smile design and digital dentures.
- Skip the TIBASE: can it be done?
- REVIEW: 3 final cases to discuss full workflow

Digital Dentistry To The Max**February 6-7, 2020**

_____ **\$2495. All participants** **Tuition will include a breakfast and lunch both days, coffee and drinks available all day, a comprehensive manual and 14 units of PACE certified continuing education.**

Name: _____ **Degree:** _____

Address: _____
